**Sisseton Chamber Email:** Ashley asked the board if we can get a gmail email to replace the chamber email due to still having issues with it. It was suggested to try opening the email on the internet rather through Outlook. It was also suggested to have Kyle from Tech One look at it first.

**Chamber Cheques:** It was stated that community members are trying to deposit Chamber Cheques since financial institutions are listed on the Chamber Cheque member list. It was decided to make a supporting members column on the Chamber Cheques member list instead of listing them as places they can be used.

**Regional Maps:** Grant, Roberts, Marshall and Day counties worked together to make a regional map that states the main attractions or events in each county. These maps were created through a grant that was received and if successful will be made into an app. The maps are completed and just need to be dispersed.

**Snow Blower Races:** Ashley brought up the idea of Snow Blower Races that was brought to her by a community member. Community members would race to see who has the best snow blower. The board thought this was a good idea since winter is so long this year. Katie volunteered to be the head of a subcommittee to plan the event.
